

IS YOUR BUSINESS PREPARED?

COVID-19 and Business Resilience

How GuidePoint Security Can Help

The COVID-19 outbreak has presented an unexpected public health threat, and businesses globally are struggling to deal with the impact on their business resilience. Additionally, we are seeing attackers take advantage of the current climate through the use of targeted phishing campaigns and malicious websites referencing the COVID-19 outbreak. Here is a useful summary that details the extent of these attacks.

The potential impacts facing your business security posture in today's climate may be challenging
