

CORPORATE OVERVIEW

Our Mission: Smarter cybersecurity decisions. Less risk.

GuidePoint Security provides trusted cybersecurity expertise, solutions and services that help organizations make better decisions and minimize risk. By taking a three-tiered, holistic approach for evaluating security posture and ecosystems, we enable some of the nation’s top organizations, such as Fortune 500 companies and U.S. government agencies, to identify threats, optimize resources and integrate best-fit solutions that mitigate risk.

Our three-tiered, comprehensive approach helps you make smarter decisions about your cybersecurity ecosystem.

Expose Potential Risks

- Assess your existing cybersecurity posture and architecture holistically
- Identify any gaps or vulnerabilities in your ecosystem
- Eliminate solutions that don't work well together in your environment

Align + Optimize Resources

- Validate regulatory compliance and adherence with industry best practices
- Align solutions to your in-house capacity and resources

Integrate Best-Fit Solutions

- Review, analyze, compare and vet current and emerging technologies
- Recommend products, tools and controls that minimize risk
- Integrate and optimize best-fit solutions for your ecosystem

Put an elite team of cybersecurity experts on your side

Our world-class, operational cybersecurity experts have lived and breathed your job.

- More than 70% of our workforce consists of tenured cybersecurity engineers, architects and consultants
- Many have worked on the security front lines of some of the nation’s top organizations, including Fortune 100 companies, DoD and U.S. intelligence agencies

We carry the world's top cybersecurity certifications and designations

SANS GIAC-Cyber Guardian

GIAC Security Expert (GSE)

Offensive Security Certified Expert (OSCE)

Certified Information Systems Security Professional (CISSP)
